Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 April 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schaich et al. (hereinafter Schaich) in view of Miranda. In regard to claim 1, Schaich discloses a container comprised of a tubular body 10, an end nozzle 12e in the form of a spherical annular bearing, a sphere 11 freely rotating and projecting outwardly from the body and a tubular cap 13, 14 having an end wall (see Figures 1 and 2) fitted to the body for covering the nozzle wherein the inner surface of the end wall defines a concave cradle (see Figure 1) in the form of a spherical colotte in which the sphere is seated when the cap is fitted to the body (see column 3, lines 35-43). Although the Schaich reference does not disclose that the cap (which has a flat upper surface) can act as a seating surface, attention is directed to the Miranda reference, which discloses another ball-type applicator wherein the cap 30 has a flat upper surface in order to enable the cap to act as a seating surface for enabling the device to be stored in an inverted fashion. Accordingly, it would have been obvious to one of ordinary skill in the art at the time the invention was made that the cap and body of the Schaich device can be designed such that the cap can act as a seating surface in order to enable the device

to be stored in an inverted fashion. It is further noted that statements of intended use, i.e., "for storing and applying liquid deodorant" do not lend any patentable structure to the claims. In regard to claim 2, the concave cradle is defined by a "corresponding median deformation" 13c of the end wall of the cap. In regard to claim 3, the seating surface would inherently be defined by a peripheral annular portion of the end wall.

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David J. Walczak whose telephone number is 571-272-5895. The examiner can normally be reached on Mon-Thurs, 6:30- 5:00.
